## PART B - Representation Form 1

1. To which part of the Local Plan does this representation relate?

From the drop down list please select one option.

Plan as a whole

2. What does your comment relate to? Please select one option.

None of the above

3. Do you consider the Draft Local Plan to be: Please select one option in each row.

	Yes	No
<b>Legally Compliant</b>		
<b>Sound</b>		X
<b>Compliant with the Duty to Co-operate</b>		X

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate.

Please be as precise as possible.

Unacceptable amount of greenbelt to be sacrificed, especially in south Warrington. So reckless to trash these green spaces (forever taking away the multitude of benefits these areas provide, green lungs, mental wellbeing, and pushing green areas further away from current residents homes), before fully exhausting re-use of available brownfield sites. Plans for infrastructure are massively lacking in details, look like a bunch of good-to-haves with no substance or guarantee of coming to fruition. Traffic and pollution levels on Knutsford Road are already bad, we don't need any more vehicles on this road.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text.

Please be as precise as possible.

Start again with a plan fit for purpose that does not destroy greenbelt land and with current thinking for climate action, pollution, and peoples well being. Warrington already has poor road infrastructure (pinch points, pollution, river crossings). Sort this out first, then plan further infrastructure changes as a primary action for the local plan. Avoid touching greenbelt so that your children/grandchildren etc will be happy with your legacy.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination

You have just completed a Representation Form for Plan as a whole.
