

The Borough of Warrington Establishment of Puffin Crossing

Statement of Reasons

Following a recent assessment of the Safety Routes to School Program it was identified that there was a substantial demand for pupils crossing Stretton Road at the cross road junction with Lumb Brook Road. This was noted for younger children accessing the local primary school and for older children accessing the bus stop for the secondary schools in the area.

It is proposed to introduce a Puffin Crossing provision to the west side of the cross roads to best serve the pupils on their outbound and return school journeys as scheduled below.

SCHEDULE

B5356 Stretton Road,
Appleton Thorn

Located approximately 15m West of junction with
Lumb Brook Road and Arley Road.
